AquaCat SUPER

Simply enjoy the best water!

AquaCat SUPER

The AquaCat SUPER lives up to its promise. No matter what the situation, the cleaner can cope with it. The SUPER even detects obstacles on its path and simply drives around them. The cleaner is suitable for all swimming pool shapes and surfaces up to 200 m². You can use the radio remote control for an individual control of the AquaCat SUPER and a systematic cleaning of certain areas. The electronic Swivel system prevents a twisting of the floating cable.

The Easy Filter Service (EFS) is a special highlight. The reusable filter cartridges can be removed from the top with one hand, allowing an easy emptying and cleaning of the filters.

Due to diverse other setting options and short cleaning intervals, the AquaCat SUPER is also interesting for hotel pools.

You can use the transport caddy, which comes with your cleaner, to conveniently bring the AquaCat SUPER to the place of use.

Convenient:
AquaControl box and radio remote control

Your advantages at a glance:

- Also ideal for large pools
- Improved water quality
- Clean floor and wall surfaces
- Fast and effective
- Considerably reduced labour
- Customised cleaning programs
- Undisturbed privacy
- Reduced load on your filter system
- Improved recirculation of pool water
- Reduced consumption of water treatment agents
- The SUPER is almost maintenance-free
- Including caddy for transport
- Technical advice and service from your specialist dealer
- Technology from the market leader
- 3 year guarantee

Art. no.:	1510-671-01
Delivery includes:	Suction robot, transport caddy with cable holder
for swimming pool surfaces:	up to 200 m ²
Supply voltage:	230 V / AC 50 - 60 Hz
Safety voltage in pool:	24V DC
Power consumption:	180 W
Suction capacity:	16 m ³ /h
Length of floating cable:	23 m
Program duration:	90, 120 or 150 min
Water temperature:	+13°C to max. +35°C
Max. immersion depth:	4 m
Min. immersion depth:	40 cm
Weight of unit incl. cable:	Approx. 13 kg
Engine protection:	yes
Electronic Swivel system:	yes
Easy-Filter-Service (EFS)	yes
Dimensions:	
Device with transport caddy:	85 x 50 x 96 cm (l x w x h)
Dimensions suction robot:	40 x 44 x 38 cm (l x w x h)
Cleaning width:	31 cm

The Easy Filter Service makes emptying and cleaning of the filter fast and easy
